Just called Jeanne to get the info.

We are currently in discussions w Chesapeake to identify a new prospective case study. Bob Sussman has been very involved with this effort. we are currently working to set up a meeting next Friday (March 23rd) for Ramona and Chesapeake senior leadership in Oklahoma City to finalize the new site. We have not made any public statements about the need for an alternative site.

Hi Dayna

Is there anything with the HF study that he needs to share with LPJ?

Liz
